

Calling design enthusiasts

Registration is now open for the Furniture Design Award 2010. If you are a student studying in an ASEAN country, a budding young designer below the age of 35, or have had your designs launched commercially, show the world what you're capable of – and win a prize while you're at it. There is no theme constriction, so feel free to explore and create. Mentoring sessions are provided for all student finalists. Submit your entries today! Deadlines are 1 September for students and young designers and 21 December for those in the open category. For more information, visit www.singaporefurniture.com
