By Smita Krishnaswamy

LOCAL furniture companies can partner with their Italian counterparts to share knowledge and build a larger market share in Italy under a new trade accord.

The Singapore Furniture Industries Council (SFIC) finalised a Memorandum of Understanding (MOU) with the Italian federation of wood, cork, furniture and furnishing industries, FederlengoArredo (FLA), yesterday after a few months of talks.

The MOU - the first of its kind between the local furniture council and a European counterpart - builds on an earlier MOU to promote economic cooperation signed in April by International Enterprise Singapore and the city of Milan.
